WE ARE DECATUR & MACON COUNTY

Your Strategic Advantage

Welcome to the Economic Development Corporation for Decatur and Macon County – the nucleus of innovation and industry in the heart of the Midwest. Discover our region's transformative capabilities, and our proven history and commitment to excellence in Advanced Manufacturing, EV & Clean Energy, Biotechnology, Logistics, and Precision Fermentation. With a legacy of industrial prowess and a vision for a sustainable future, Decatur and Macon County invite you to explore a realm of possibilities.

A Fusion of Manufacturing Heritage and Innovation

This rich history of manufacturing excellence in Decatur and Macon County is a testament to our community's enduring spirit of innovation and hard work. Over the years, our region has evolved to embrace not only traditional manufacturing but also cutting-edge technologies and sustainable practices. With a commitment to both our agricultural roots and the ever-evolving advanced manufacturing landscape, we are poised to continue shaping a prosperous and dynamic future for generations to come.

Precision Fermentation From Lab to Line

In collaboration with the Integrated Bioprocessing Research Laboratory (IBRL), the Economic Development Corporation of Decatur and Macon County, in conjunction with several notable companies such as ADM and Primient, have joined forces to establish the Illinois Fermentation and Agriculture Biomanufacturing (iFAB) Tech Hub. This 51-mile lab-to-line hub makes Illinois the center for biomanufacturing and precision fermentation.

A REGIONAL ADVANTAGE

Infrastructure and Sustainability

A resource rich community to meet new and growing business needs.

ELECTRICITY

Ameren Illinois provides our community with larger access to deregulated electric and natural gas infrastructure than any other community in downstate Illinois.

WATER

Lake Decatur is not only beautiful, it offers companies a dependable water source with 9 billion gallons in storage capacity. This water system became even more reliable after an investment of $100 million to dredge Lake Decatur, which increased its storage volume by nearly 30%.

NATURAL GAS

Within Macon County, two interstate pipelines are present-Rockies Express and Panhandle Eastern. In addition, Ameren owns and operates a network of high pressure lines that are available to furnish natural gas to the City's robust industrial base.

SANITARY SEWER

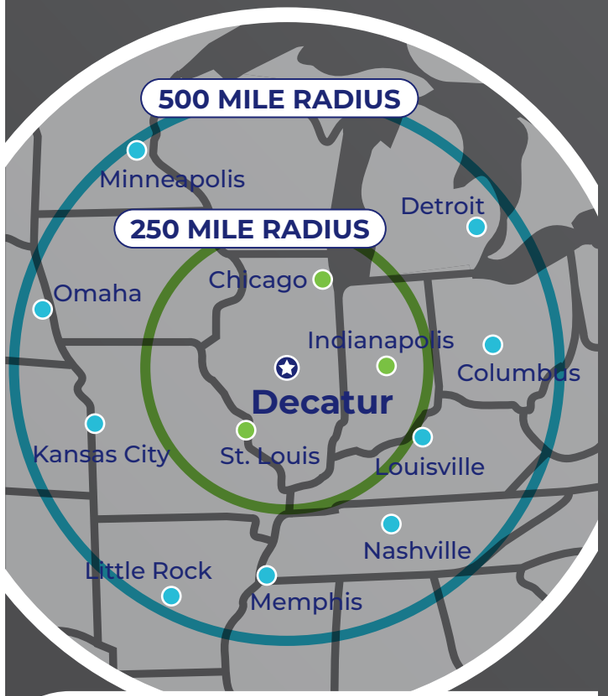
A robust sanitary sewer system that accommodates manufacturing and industrial flows. Local governments continue to invest millions of dollars to ensure a reliable system with capacity to service any industry.

CARBON SEQUESTRATION

Decatur is located in The Illinois Basin, which features the Mt. Simon Sandstone Saline Reservoir located about 1.5 miles underground, as well as several layers of shale rock, making it ideal for carbon sequestration. Decatur is home to two carbon capture and storage (CCS) projects through ADM and the University of Illinois. ADM is a national and world leader in the implementation of CCS technology, and was the first American company to be granted a Class VI CCS well permit by the United States Environmental Protection Agency and has been successfully operating CCS wells in Decatur for more than a decade.

Market Reach

Achieve same-day delivery to 1/3 of the US population in a 1-day truck drive from Decatur.



Occupational Employment

WHITE COLLAR 61 %

BLUE COLLAR 39 %

MIDWEST INLAND PORT

A multi-modal hub located in Decatur, Illinois that delivers both domestic and international flexibility for companies through a well-positioned transportation corridor, connecting the Midwest to the East, West and Gulf Coasts of North America. The Midwest Inland Port has access to over 100 million people within 500 miles for same day delivery service, including Chicago, Milwaukee, Detroit, Columbus, Atlanta, Nashville, Memphis, Wichita, Omaha and Minneapolis.

Intermodal Ramp 280-acre ADM Intermodal Ramp available to third parties for importing and exporting. The ramp has on-site storage of over 2,500 FEUs including 20', 40', and ISO tanks. With 25-minute turn times and chassis availability, trucks are at full speed within minutes of picking up containers.

Air A 2,000 acre, quick access airport equipped with Class 1 Instrument Landing System and runways measuring 8,500' long and 150' wide to handle large aircraft.

Rail Served by 2 Class I railroads and short line (CN, NS, Watco) connecting to all North American rail networks- Only state in which all seven Class I railroads operate.

Roadways Decatur delivers toll-free access to 5 major roadways, including Interstates 72, 55, 74, 57 and US Highway 51. Our uncongested Interstates have less daily traffic density per interstate lane than competing sites.

Motor Carriers and 3PLs Our region offers diverse services, including access to different carriers (truckload, less-than-truckload, small parcel), flexible logistics (warehousing, transportation, order fulfillment), and more.
